### Access Policy Statement

We aim to ensure that our site and premises are fully accessible to people with disabilities, additional needs and impairments.

This will be achieved by:

- Seeking to ensure that facilities and the physical environment do not present barriers to access for people with disabilities, additional needs and impairments;
- Regularly reviewing accessibility with key stakeholders;
- Seeking to address in a timely manner any issues or difficulties that may occur;
- Ensuring that health and safety arrangements take into account the specific needs of those with disabilities, additional needs and impairments;
- Ensuring that the medical and care needs of students, staff and visitors are met as fully as possible while they are in the academy;
- Ensuring that accessible facilities are well and appropriately maintained as priority.

Who is responsible?

- The Principal alongside the Academy Council retains oversight of access.
- Day-to-day management of access is co-ordinated by a cross-academy group comprising of members of the Inclusion team, Senior Leaders and the Academy Business Manager.

Principal: Jon Angell

Chair of Academy Council: Ruth Pickersgill
